

Incident Status Summary (ICS-209)

1: Date 05/12/2011	2: Time 1815	3: Initial Update Final XX	4: Incident Number NC-ALR-111006	5: Incident Name Pains Bay		
6: Incident Kind Wildfire (Full Suppression/Perimeter Control)		7: Start Date Time 05/05/2011 1500	8: Cause Under Investigation	9: Incident Commander Mike Quesinberry	10: Incident Command Organization Type 1 Team	11: State- Unit NC- ALR
12: County Dare	13: Latitude and Longitude Lat: 35° 35' 50" Long: 75° 48' 1" Ownership: NC-ALR		14: Short Location Description (in reference to nearest town): Approx. 19 miles south of Manns Harbor, NC			
15: Size/Area Involved 25,678 ACRES	16: % Contained or MMA 55 Percent	17: Expected Containment Date:	18: Line to Build	19: Estimated Costs to Date \$1,210,571	20: Declared Controlled Date: Time:	
21: Injuries this Reporting Period: 0	22: Injuries to Date: 0	23: Fatalities 0	24: Structure Information			
			Type of Structure	# Threatened	# Damaged	# Destroyed
25: Threat to Human Life/Safety: Evacuation(s) in progress ---- No evacuation(s) imminent -- Potential future threat ----- No likely threat -----			Residence	0	0	0
			Commercial Property			
			Outbuilding/Other			
26: Projected incident movement/spread 12, 24, 48, and 72 hour time frames: 12 hours: Fire is expected to have minimal spread. 24 hours: Additional Fire Spread will be influenced by burnout operations. 48 hours: 72 hours:						
27: Values at Risk: include communities, critical infrastructure, natural and cultural resources in 12, 24, 48 and 72 hour time frames: 12 hours: Various T&E species, National Heritage sites, and Department of Defense lands and infrastructure. 24 hours: Various T&E species, National Heritage sites, and Department of Defense lands and infrastructure. 48 hours: Various T&E species, National Heritage sites, and Department of Defense lands and infrastructure. 72 hours: Various T&E species, National Heritage sites, and Department of Defense lands and infrastructure.						
28: Critical Resource Needs (amount, type, kind and number of operational periods ()) in priority order in 12, 24, 48, and 72 hour time frames): 12 hours: 24 hours: 48 hours: 72 hours:						
29: Major problems and concerns (control problems, social/political/economic concerns or impacts, etc.) Relate critical resources needs identified above to the Incident Action Plan. Concerns related with potential impacts to coastal area tourism due to smoke and air quality across the Eastern side of North Carolina.						
30: Observed Weather for Current						

Operational Period															
Peak Gusts (mph): 14 Max.		31: Fuels/Materials Involved: 4 Chaparral (6 Feet)													
Temperature: 74		Pocosin with intermixed Pine													
Wind Direction: ENE Min.															
Relative Humidity: 48															
32: Today's observed fire behavior (leave blank for non-fire events): Smoldering and creeping in surface fuels with some running and torching of pocosin during burnout operations during mid-afternoon. Northern perimeter experienced increasing amounts of ground fire during today's shift.															
33: Significant events today (closures, evacuations, significant progress made, etc.): Fire crossed West of Pamlico Rd. on the Southwestern containment line today. Resources conducted burnout operations along State Highway 264 to keep fire South of the Highway, anchoring into Long Shoal River accessing Pamlico Sound. This burnout accounted for today's increased acreage of fire perimeter.															
34: Forecasted Weather for next Operational Period				35: Estimated Control Date and Time:				36: Projected Final Size:		37: Estimated Final Cost:					
Wind Speed (mph): 5-10 Temperature: 77															
Wind Direction: SE Relative Humidity: 55															
38: Actions planned for next operational period: Continue to hold and improve control lines in the Northern perimeter of fire. Crews will reinforce control lines to the South and start mop-up operations along State Highway 264, where this afternoon's burnout operations took place.															
39: For fire incidents, describe resistance to control in terms of:															
1. Growth Potential - Medium															
2. Difficulty of Terrain - Medium															
40: Given the current constraints, when will the chosen management strategy succeed?															
41: Projected demobilization start date:															
42: Remarks: Fire is currently being managed under unified command with the North Carolina Division of Forest Resources. State Highway 264 South of Stumpy Point remains closed.															
43: Committed Resources (Supplemental Committed Resources follow the first block)
